# 研討會論文

1. WEI-YU LEE, **KE-LI TSAI.** Phospholipase D is invloved in retinoic acid-induced P19 cell differentiation and proliferation. The 25th Joint Annual Conference of Biomedical Sciences, Taipei, . March 27 - 28, 2010.

2. YEN-HUNG LIN, HUI-JU TSAI, **KE-LI TSAI.** Anion exchanger 3 is required during retinoic acid-induced P19 neuronal differentiation.The 25th Joint Annual Conference of Biomedical Sciences, Taipei, . March 27 - 28, 2010.

3. WEI-PING WANG, **KE-LI TSAI.** The role of chloride channels in retinoic acid-induced P19 neuronal differentiation. The 25th Joint Annual Conference of Biomedical Sciences, Taipei, . March 27 - 28, 2010.

4. TZU-YIN CHEN, **KE-LI TSAI**, CHIN HSU. Estrogen receptor-mediated protective mechanism in hemorrhagic stroke. The 25th Joint Annual Conference of Biomedical Sciences, Taipei, . March 27 - 28, 2010.

5. TZU-YIN CHEN, **KE-LI TSAI**, TZU-YING LEE, CHUANG CHIN CHIUEH, WEN-SEN LEE, CHIN HSU. Sex-specific mechanism of neuroprotection by estrodiol in iron-induced brain injury. 36th Congress of the International Union of Physiological Sciences, Kyoto, . July 27 - August 1, 2009.

6. WEI-YU LEE, **KE-LI TSAI**. Effect of phospholipase D inhibition on retinoic acid-induced P19 neuron and glial cell differentiation. The 24th Joint Annual Conference of Biomedical Sciences, Taipei, . March 14 - 15, 2009.

7. YEN-HUNG LIN, HUI-JU TSAI, **KE-LI TSAI.** Anion exchanger is required during retinoic acid–induced P19 neuron differentiation. The 24th Joint Annual Conference of Biomedical Sciences, Taipei, . March 14 - 15, 2009.

8. HUI-JU TSAI, **KE-LI TSAI**. The role of chloride transport in retinoic acid-induced P19 neuron differentiation. The 23rd Joint Annual Conference of Biomedical Sciences, Taipei, . March 29 - 30, 2008.

9. HUI-JU TSAI, CHIN HSU, **KE-LI TSAI**. Inhibition of anion transport promotes retinoic acid-induced P19 neuron differentiation. The 22nd Joint Annual Conference of Biomedical Sciences, Taipei, . March 17 - 18, 2007.

10. **KE-LI TSAI**, PEI-LIN SHAO, HUEI-CHUAN SHIH, YU-YANG CHEN, TZU-YING LEE & CHIN HSU. Gene regulation by NMDA receptor activation in the SDN-POA neurons of male rats during sexual development. 35th Congress of the International Union of Physiological Sciences, San Diego, . March 31 - April 5, 2005.

11. **K-L TSAI,** R. D. VAUGHAN-JONES, K. J. BUCKLER. A DIDS-insensitive $Cl^-$-$HCO_3^-$ exchange mediates acid influx in rat carotid body type I cells. The Physiological Society Scientific Meeting, Cambridge, . July, 2000. *Journal of Physiology ( London )* **527**: 27P.

12. **KE-LI TSAI**, RICHARD D. VAUGHAN-JONES, & KEITH J. BUCKLER. A dual-acid influx transport system in the carotid body type I cell.XIVth Conference of International Society for Arterial Chemoreceptor, Philadelphia, . June 23 - 27, 1999

13. E.-F. KAO, I.-H. LIU, **K-L TSAI,** M.-L. WU. The capacitative $Ca^{2+}$ influx induced by cyclopiazonic acid is prevented by glycolytic inhibitors in $C_6$ glioma cells. The Physiological Society Scientific Meeting, Leeds, . September, 1996. *Journal of Physiology ( London)* **497**: 120P

14. **K-L TSAI**, C.-C. CHEN, M.-L. WU. The acidification of intracellular pH induced by hydrogen peroxide in $C_6$ glioma cells. The Physiological Society Scientific Meeting, Oxford, . July, 1995. *Journal of Physiology ( London )* **487**: 57P-58P
